Severe Weather Outlook Wednesday, July 03, 2019

Hazardous Weather

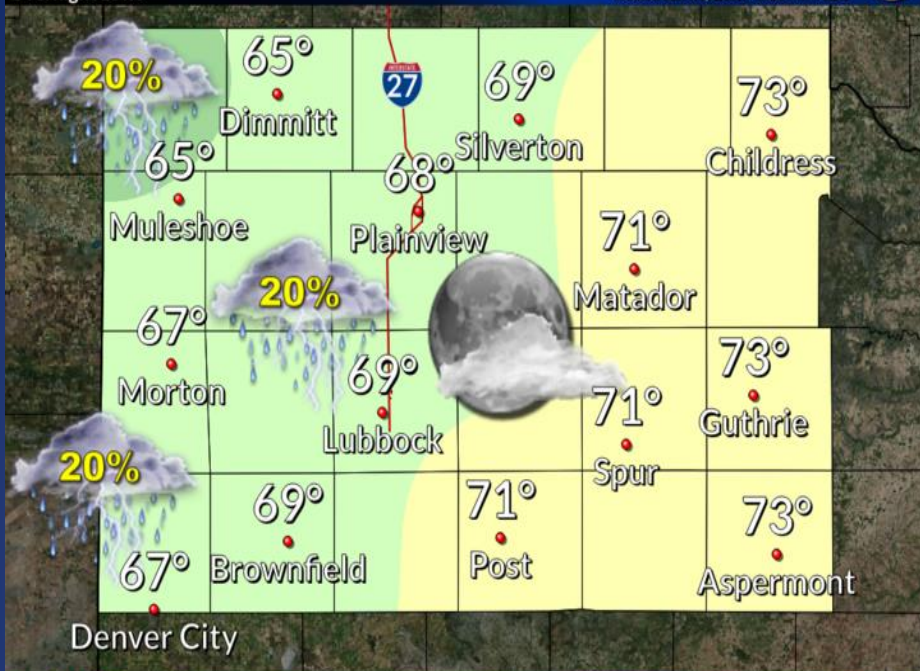

Tonight

Overnight Lows

Weather Forecast Office

Lubbock, TX

Issued Jul 03, 2019 4:10 AM CDT

f t NWSLubbock

weather.gov/lub

Mild overnight lows with a slight chance of thunderstorms, mainly along the TX/NM state line.

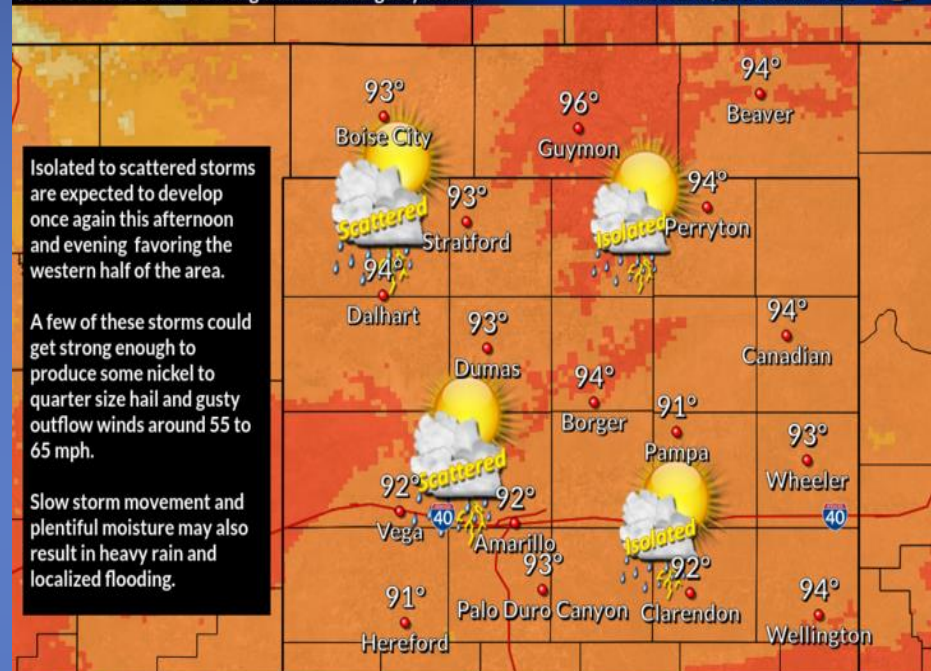

Today: Hot with Chance for PM Storms

Some storms could be strong with hail and gusty winds

Weather Forecast Office

Amarillo, TX

Issued Jul 03, 2019 5:52 AM CDT

Isolated to scattered storms are expected to develop once again this afternoon and evening favoring the western half of the area.

A few of these storms could get strong enough to produce some nickel to quarter size hail and gusty outflow winds around 55 to 65 mph.

Slow storm movement and plentiful moisture may also result in heavy rain and localized flooding.

f t NWSAmarillo

weather.gov/ama

We expect temperatures to warm into the 90s today with a chance for afternoon and evening storms favoring the western Texas and Oklahoma Panhandles. The strongest storms could be capable of producing hail and strong outflow winds. Heavy rain and localized flooding will also be possible.

Hazardous Weather

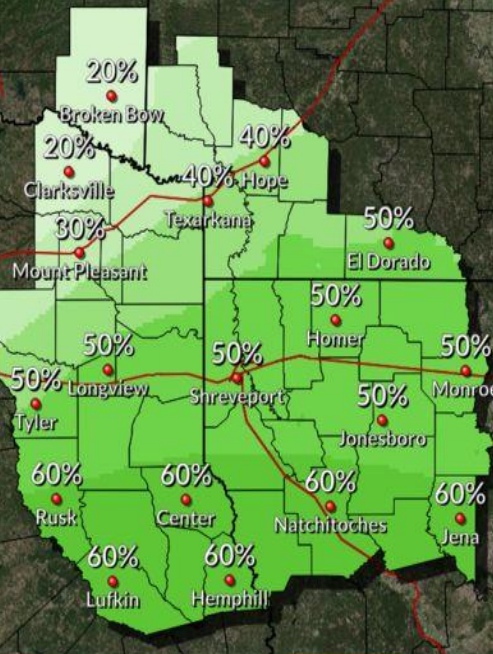

Rain Chances Today

Weather Forecast Office
Shreveport, LA
Issued Jul 03, 2019 3:53 AM CDT

Chance of Precipitation (%)

60%
50%
40%
30%
20%

f t v NWSShreveport

weather.gov/shv

Scattered to numerous showers and thunderstorms expected today with the highest rain chances south of I-20.

Today

Showers and T-storms likely. Highs in the upper 80s.

Weather Forecast Office
Lake Charles, LA
Issued Jul 03, 2019 6:37 AM CDT

High Temperature (F)

90°
85°

f t v NWSLakeCharles

weather.gov/lch

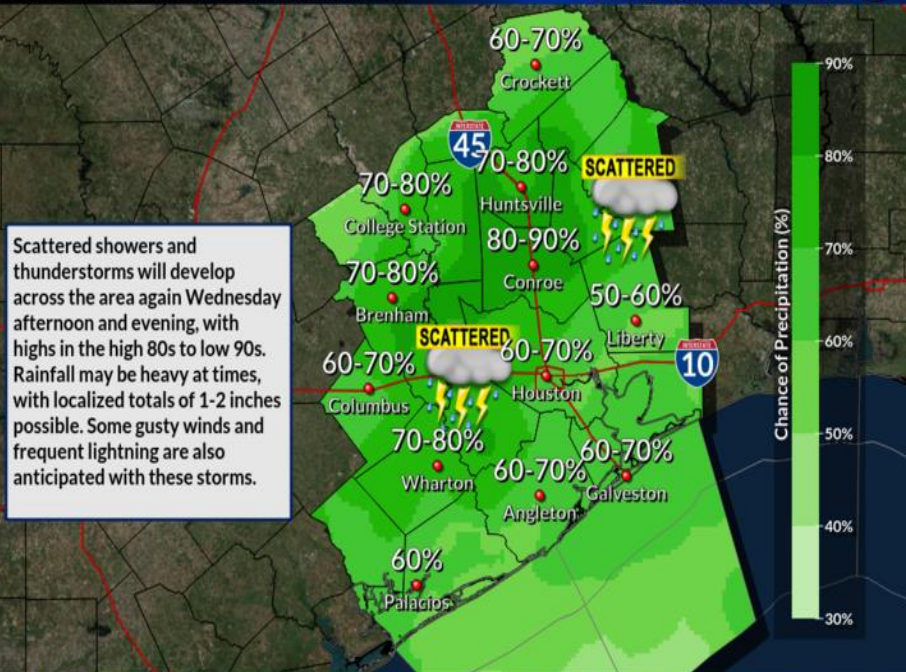

High pressure over the eastern gulf will continue to pump deep moisture across the area. Afternoon heat and this deep moisture will aid in the development of scattered showers and thunderstorms. Highs will climb to the upper 80s with south winds 5 to 10 mph.

Hazardous Weather

Wednesday

Another Round of Scattered Showers and Storms

Weather Forecast Office
Houston/Galveston TX
Issued Jul 02, 2019 10:36 PM CDT

[f](#) [t](#) [v](#) @NWSHouston

weather.gov/hgx

Another active weather pattern is expected Wednesday, with periods of showers and thunderstorms moving across the local area throughout the day.

Partly to Mostly Cloudy Today

Thunderstorms most likely in the Victoria Crossroads

Weather Forecast Office
Corpus Christi, TX
Issued Jul 03, 2019 5:19 AM CDT

[f](#) [t](#) [v](#) NWSCorpus

weather.gov/crp

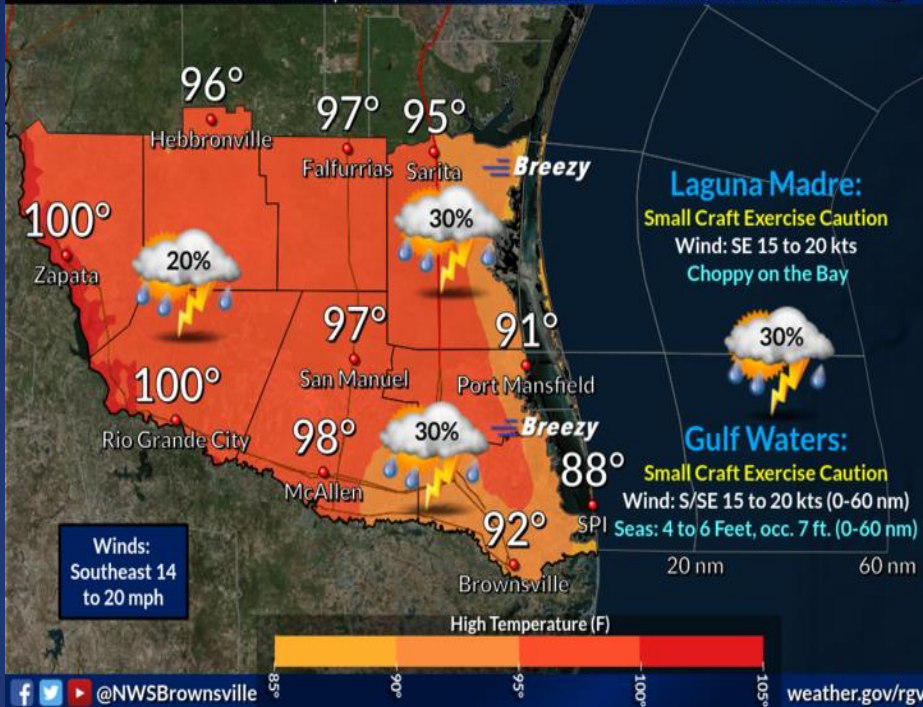

Shower and thunderstorm chances resume today under partly to mostly cloudy skies. The greatest rainfall probabilities are expected in the Victoria Crossroads. Highs will range from the mid and upper 80s along the coast to around 100 across the far west.

Hazardous Weather

Today | Hot & Humid

Iso'd-Sct'd Showers/T-storms Possible | Small Craft Exercise Caution

Weather Forecast Office
Brownsville/RGV, TX
Issued Jul 03, 2019 5:20 AM CDT

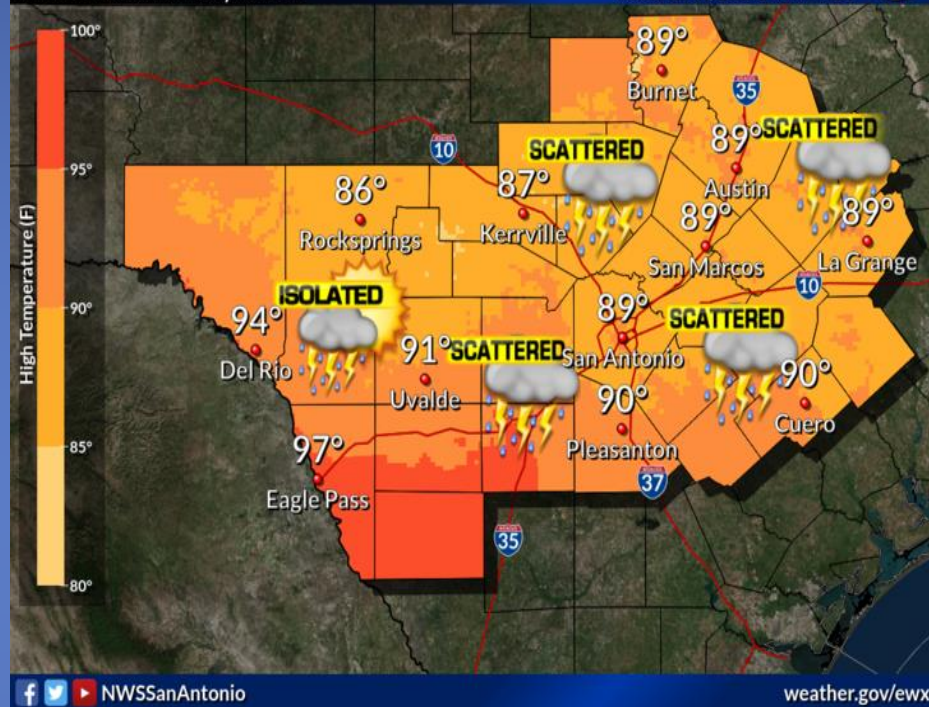

A hot and humid day in store across Deep South Texas today. Overall, the day will be drier than previous days, but isolated showers and thunderstorms are still possible, especially this afternoon along the sea-breeze. The best chances of rain will be east of HWY 281/I-69C (20-30%). The bigger story today will be this afternoon's hot temperatures. Expect temperatures to top out near 100 degrees along and west of I-69C. Heat index values will range from 105-110 for most locations. Winds will once again be breezy, breeziest along the coast, 15-20 mph. For mariners: Operators of small craft should exercise caution on the bay and Gulf waters due to breezy winds. Waters will be choppy on the bay, with Gulf seas generally 4 to 6 feet, occasionally higher at times.

Today: Scattered Showers and Storms

Isolated Pockets of Heavy Rainfall

Weather Forecast Office
Austin/San Antonio, TX
Issued Jul 03, 2019 2:49 AM CDT

Scattered showers and thunderstorms are forecast today. A few storms could produce locally heavy downpours and gusty winds. Dangerous cloud to ground lightning will also be possible.

Hazardous Weather

Today & Tonight

Today's Highs

Weather Forecast Office

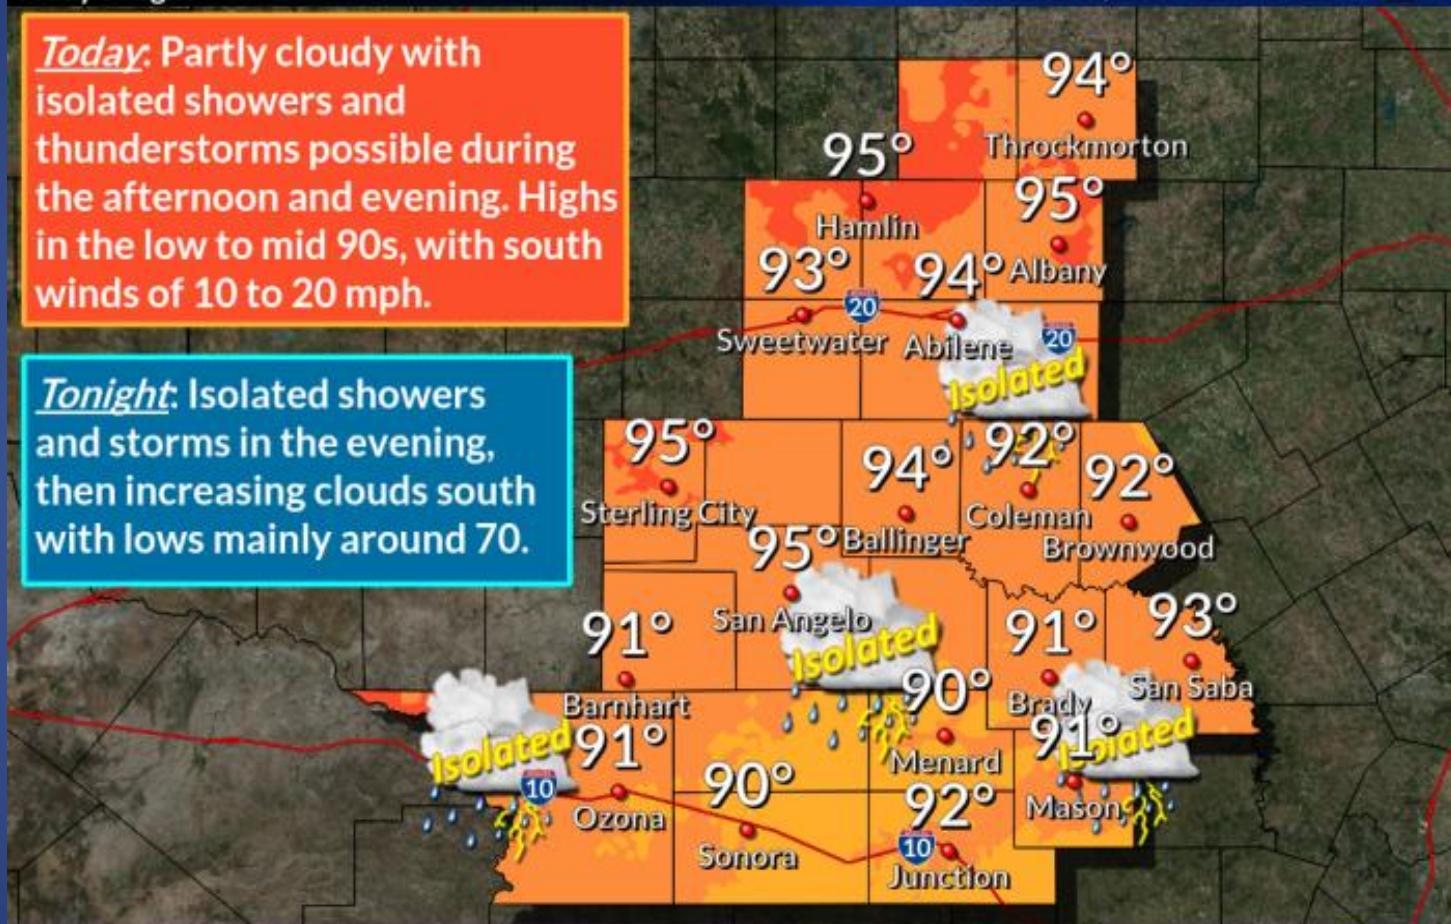

San Angelo, TX

Issued Jul 03, 2019 4:17 AM CDT

Today: Partly cloudy with isolated showers and thunderstorms possible during the afternoon and evening. Highs in the low to mid 90s, with south winds of 10 to 20 mph.

Tonight: Isolated showers and storms in the evening, then increasing clouds south with lows mainly around 70.

NWSSanAngelo

weather.gov/sjt

Isolated showers and thunderstorms will be possible again this afternoon and evening as temperatures warm up into the low to mid 90s. Look for another mild night with lows near 70, and increasing clouds for southern areas.

Hazardous Weather

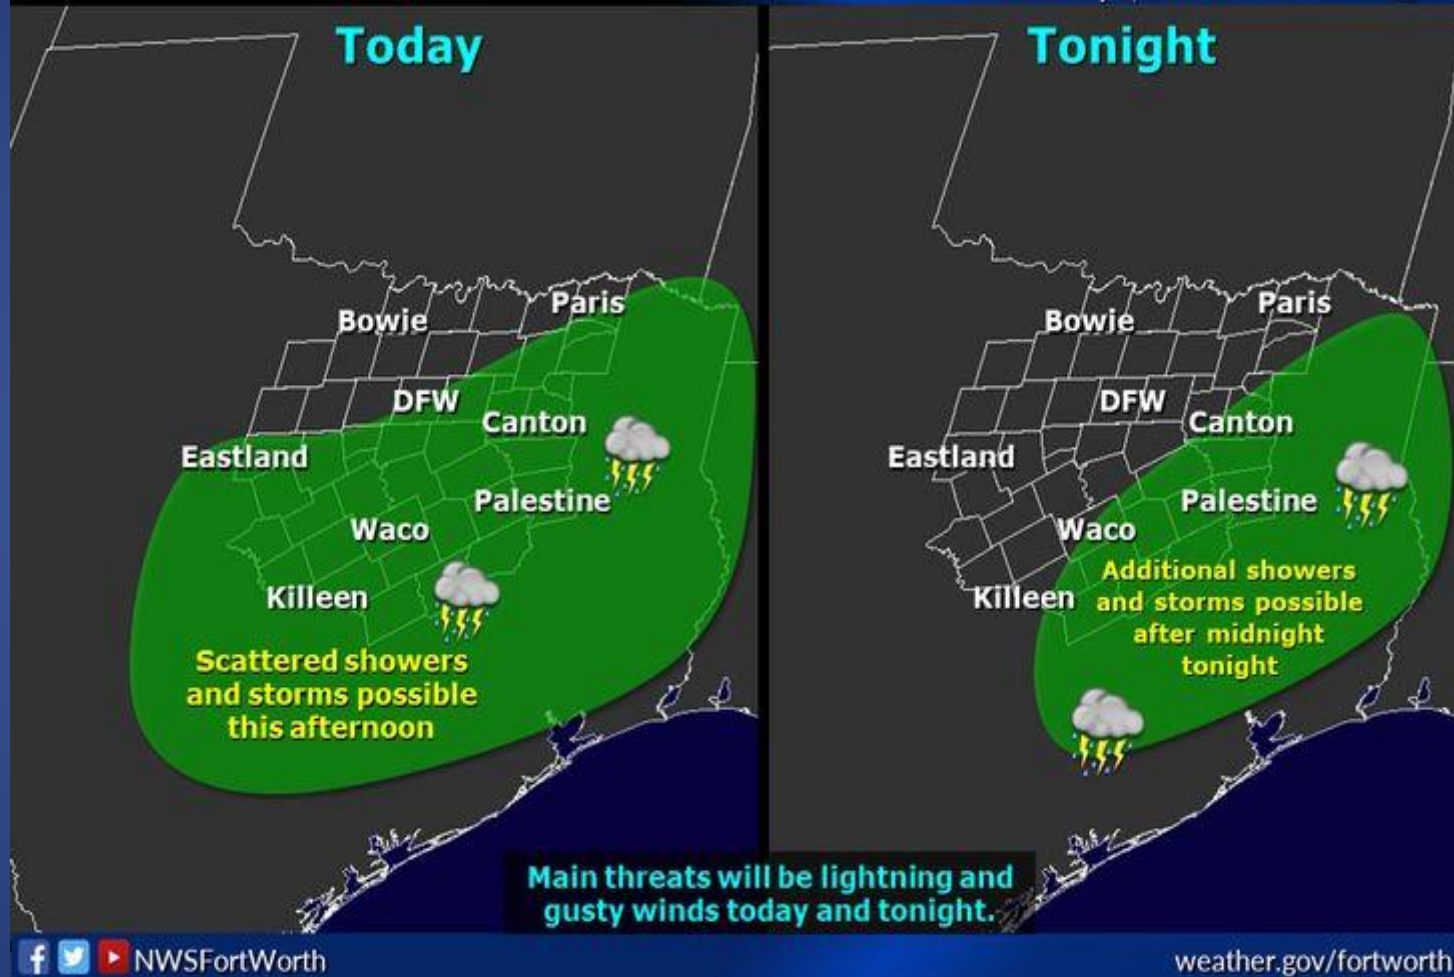

Scattered Showers/Storms

Additional storm chances overnight

Weather Forecast Office

Fort Worth, TX

Issued July 3, 2019 5:49 AM CT

Scattered thunderstorms will be possible this afternoon mainly south of I-30/I-20. Thunderstorms decrease after sunset, but another round of showers and storms will be possible after midnight mainly east of I-35.

Hazardous Weather

A Little Warmer...

Near-normal temperatures...

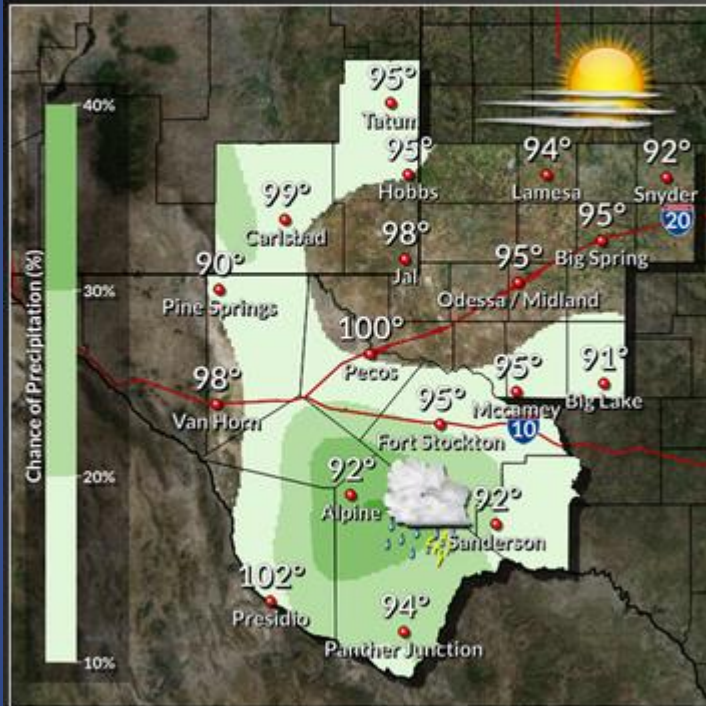

Weather Forecast Office

Midland/Odessa, TX

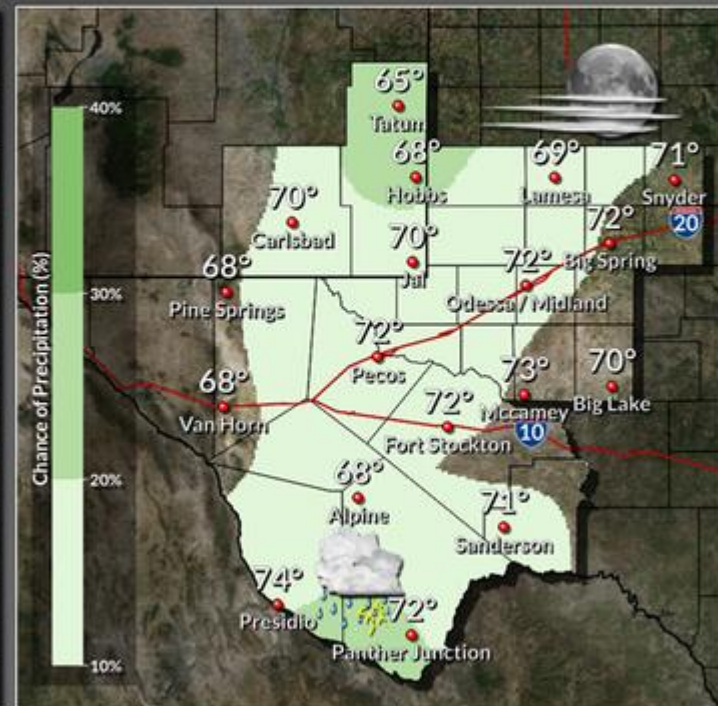

Issued July 3, 2019 2:40 AM CT

Today

Tonight

   NWSMidland

weather.gov/maf

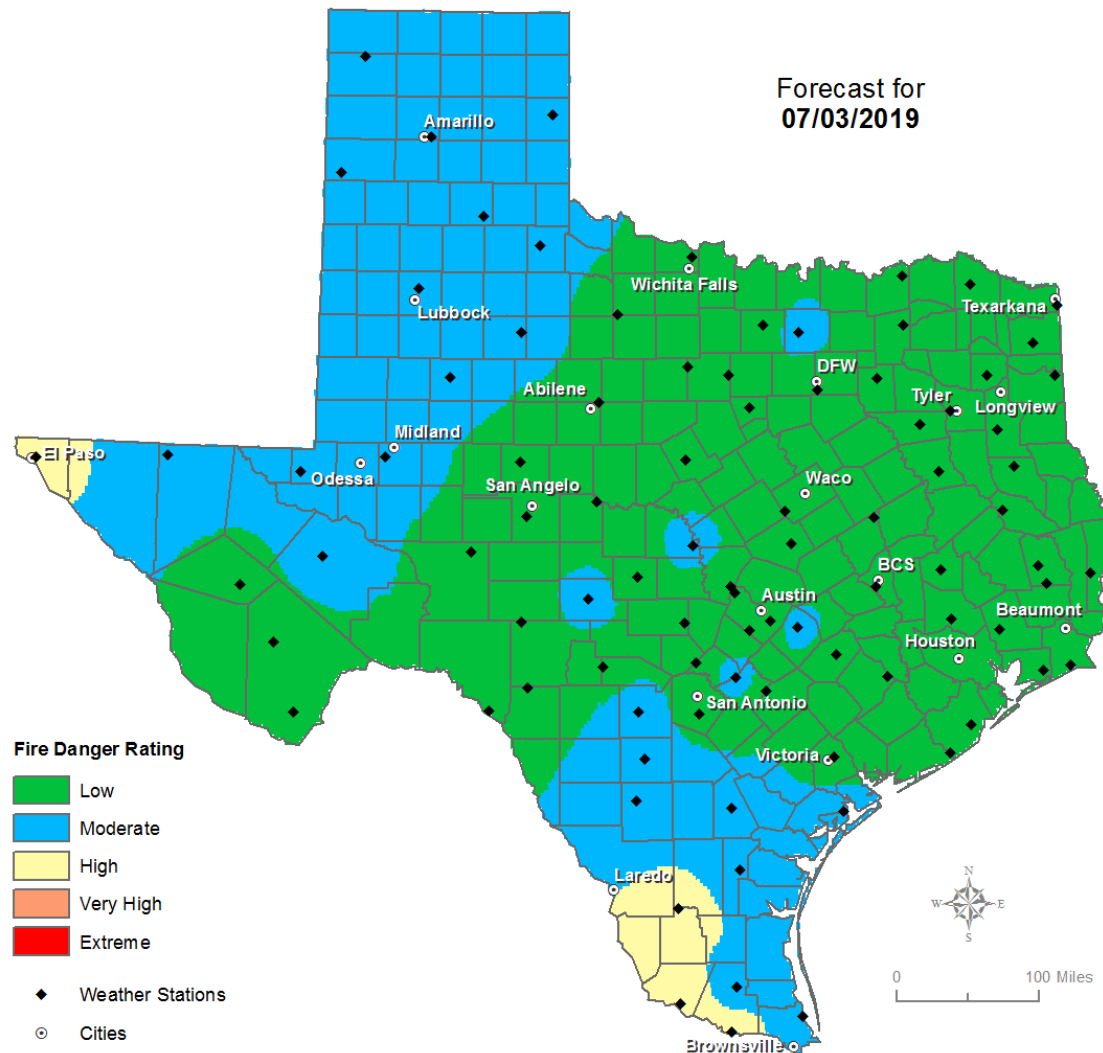

Thunderstorms are possible today and tonight. Any storms that do develop will be accompanied by frequent lightning, small hail, gusty winds, and brief, heavy rainfall. Otherwise, near-normal temperatures are expected.
